BPO Management Services Presents Its eReview at The IBM Information On Demand EMEA Conference 2008, June 3 - June 6 at the World Forum, The Hague

THE HAGUE, Netherlands, June 3 /PRNewswire-FirstCall/ -- BPO Management Services, Inc., "BPOMS" (OTC Bulletin Board: BPOM) a leading full-service business process outsourcing company focused on serving middle-market enterprises, today announced that it is presenting its document view, redline and collaboration product eReview for Enterprise Content Management solutions users, at IBM's Information on Demand EMEA (Europe, Middle East and Africa) Conference 2008, being held June 3 through June 6 at the World Forum, The Hague.

Frank Mantel, director of marketing/sales at Research Engineers GmbH, a wholly owned subsidiary of BPOMS and a leading provider of ECM solutions and an UINM-FileNet ISV and ValueNet partner, will make the presentation starting today at the Research Engineers booth #15.

The presentation will focus on eReview and its integration with IBM ECM solutions. eReview provides ECM users the integrated capability to easily view and mark-up in-process documents and drawings without the original software. eReview supports hundreds of file formats from scanned images to office documents to CAD drawings.

As a result, the eReview -- IBM integration combines the document conferencing, view and mark-up capabilities of eReview with the power of IBM's ECM software. It gives IBM and FileNet users additional functionality to view, mark-up, print, conference and collaborate in real time, as well as find, retrieve, manipulate, and mark-up diverse range documents.

BPOMS customers presently integrating eReview with their process or document management system include Case New Holland, Agilent, LG, Deutsche Post, DHL, Amtrak, DRV-Bund, Northop Grumman, Airbus and KPN among others.
